

Conductive Point level switch Nivotester FTW325

Point level switch with intrinsically safe signal circuit for connection to a conductive sensor

Lợi ích:

- Cost-effective point level switch for conductive liquids
- Intrinsically safe signal circuit EEx ia IIC for using sensors in hazardous areas
- Line monitoring up to the sensor
- Configurable sensitivity range
- Alarm relay can be switched as second level relay (SPDT)
- Easy wiring thanks to pluggable terminal blocks

Tổng quan về thông số kỹ thuật

- **Min. density of medium** min. 10 μ S

Thông tin thêm và mức tính giá hiện tại:

Phạm vi ứng dụng: The Nivotester FTW325 is a point level switch with intrinsically safe signal circuit for connection to a conductive sensor. It has a compact housing for easy series mounting on a standard DIN rail in the cabinet.

Tín năng và thông số kỹ thuật

Point Level / Liquids

Measuring principle

Conductive

Characteristic / Application

2-channel level measurement device, level limit, switch delay, two-point control

Point Level / Liquids

Supply / Communication

85V ... 253V AC

20V ... 30V AC

20V ... 60V DC

Ambient temperature

-20 °C ... 60 °C

(-4 °F ... 140 °F)

Min. density of medium

min. 10 uS

Communication

2 relays SPDT/DPDT

Certificates / Approvals

ATEX, FM, CSA, NEPSI, EAC

Safety approvals

Overfill protection WHG
