

# Supply chain management software SupplyCare Enterprise

Enterprise inventory management platform  
for transparent information within the supply  
chain

## Benefits:

- Improves demand planning and lowers your inventories
- Enables business processes such as Vendor and Supplier Managed Inventory (VMI, SMI)
- Complete solution from inventory measurement and data acquisition to integration in your business processes
- Worldwide service and support network
- Faster reaction to supply chain volatilities
- Complete inventory visibility 24 hours a day, 7 days a week, anywhere within your enterprise, even on mobile devices

**Field of application:** The SupplyCare inventory management platform supports users in collaborative demand planning, event-driven replenishment planning and scheduling as well as the reconciliation (in/out) and consolidation (totaling) of geographically distributed inventories. You can involve partners from all entities and even from different companies to make your supply chain smarter. The enterprise version is installed on your server infrastructure.
