

Supply chain management software SupplyCare Enterprise

Enterprise inventory management platform for transparent information within the supply chain

Benefits:

- Improves demand planning and lowers your inventories
- Enables business processes such as Vendor and Supplier Managed Inventory (VMI, SMI)
- Complete solution from inventory measurement and data acquisition to integration in your business processes
- Worldwide service and support network
- Faster reaction to supply chain volatilities
- Complete inventory visibility 24 hours a day, 7 days a week, anywhere within your enterprise, even on mobile devices
